

# Step Into Java: for loops

Mr. Neat  
Java

Use a while loop to write  
“hello” 10 times

See example folder

Use a for loop to write  
“hello” 10 times

See example folder

# Lab

- Write an app that asks the user for a number and then outputs the integers from 0 up to that number out to the output window
- Use a for loop

# Sample Output

Please enter a number: *7*

0

1

2

3

4

5

6

7
